

HFA206p

PASSIVE FULL-RANGE VERTICAL ARRAY

The HFA206 is a 2x6.5" passive speaker designed for virtually any application where size is critical and high output and outstanding sonic performance are required. Natural sounding music and intelligible speech are the result not only of a careful system design, but mainly the selection and matching of the components. To assure maximum performance and reliability, the HFA206p incorporates high-quality custom speakers. This versatile speaker works equally well on tripod stands, on the wall with the custom U-Bracket or as a flying system with a wide range of rigging points. The cabinets are constructed using birch plywood and finished in durable black semi-matt textured paint. Front and speakers' protection is assured by an acoustically transparent power coated metal grille.

Product Type

Passive Two-way Vertical Array

Frequency Response (-6dB)

80Hz - 18.000Hz

Nominal Coverage (-6dB)

90° x 40° user rotatable

Program Power

500W

Nominal Impedance

4Ω

Sensitivity (1W, 1m)

95dB (Full-Space)

Maximum SPL (calculated)

121dB / 127dB (Full-Space)

Low Frequency Driver

2 x 6.5" (170mm) / 1.5" (38mm) voice coil, custom speakers

High Frequency Driver

1 x 1" (25mm) exit / 1.75" (44mm) voice coil, custom compression driver

Input Connectors

2 x Neutrik NL4

Recommended Amplifier

MA1700 / MA900

Dimensions (WxHxD)

219 x 625 x 259 mm

Net Weight

14.4kg

Shipping Weight

15.6kg
